Full Stack Developer | Agentic AI & Automation

Full Stack Developer with 2+ years of experience building web applications and AI-driven automation workflows using Laravel, PHP, Node.js, JavaScript, HTML, CSS, and MySQL. Hands-on experience building AI agent automations with HubSpot CRM, Gemini Enterprise, and GCP, plus an Agentic AI marketing agent that automates RSS news aggregation, LLM-based content generation, and content filtering. Skilled in REST API development, authentication, role-based access control (RBAC), admin dashboards, and database-driven systems, with UI/UX design experience in Figma and Canva. Strong understanding of SDLC, Agile methodologies, Git version control, CI/CD, Docker, performance optimization, and clean, maintainable code.

Technical Skills

AI & Automation	:	Agentic AI, AI Agents, Workflow Automation, Gemini Enterprise Agents, LLM Integration, Prompt Engineering, HubSpot CRM, RSS Feed Integration, API Integration
Backend	:	Node.js, PHP, Laravel (MVC, Blade, Eloquent ORM, Middleware), RESTful APIs, JSON, Authentication & Authorization, RBAC
Cloud & DevOps	:	AWS, Google Cloud Platform (GCP), GCP Labs, HashiCorp Vault, CI/CD Pipelines, Docker
Frontend	:	HTML5, CSS3, JavaScript, Bootstrap, Responsive Web Design
Database	:	MySQL, Schema Design, Query Optimization, phpMyAdmin
Tools & Practices	:	Git, GitHub, Postman, VS Code, Chrome DevTools, SDLC, Agile, SEO
UI/UX Tools	:	Figma (Wireframing, Prototyping), Canva

Experience

Application Expert – Frontend Mar 2026 – Present
Technosprout Systems Pvt. Ltd. *India*

- Develop web applications using Node.js, HTML, CSS, and JavaScript
- Build AI agent automation solutions using CRM tools (HubSpot) to streamline business workflows
- Create automations on Gemini LLM extensions using GCP Labs, working with Gemini Enterprise agents
- Work with HashiCorp Vault for secure secrets management
- Gained working knowledge of AWS and Google Cloud Platform (GCP) services
- Learning and applying CI/CD pipelines and Docker for containerized deployments

Laravel Developer – Full Stack & UI/UX Aug 2025 – Feb 2026
Nextus Global Services *Mumbai, India*

- Handled end-to-end development of web applications including backend, frontend, database design, and UI/UX
- Developed dynamic Laravel applications using MVC architecture, Blade templating, and RESTful APIs
- Designed and implemented MySQL databases using phpMyAdmin, including schema design, relationships, and query optimization
- Built responsive frontend interfaces using HTML, CSS, JavaScript, and Bootstrap
- Designed application UI/UX and mobile app screens using Figma and converted designs into functional interfaces
- Implemented authentication, authorization, role-based access control, and secure session handling
- Managed application performance, bug fixing, feature enhancements, and deployments
- Collaborated with stakeholders to understand requirements and deliver complete solutions

Web Developer & UI/UX Designer Aug 2024 – Aug 2025
Technicul Cloud LLP *Mumbai, India*

- Designed and developed static business websites, dynamic web applications, and admin dashboards using Laravel

- Created UI/UX designs for web and mobile applications, including wireframes, prototypes, and user flows using Figma
- Designed mobile app UI screens, website templates, landing pages, and marketing visuals
- Converted UI/UX designs into clean, responsive, production-ready interfaces using HTML, CSS, JavaScript, and Bootstrap
- Developed backend logic, CRUD operations, and RESTful APIs using Laravel
- Designed visual assets and creatives using Canva for websites, presentations, and promotional use
- Improved website performance, usability, and accessibility through UI enhancements and optimization

Education

Chhatrapati Shivaji Maharaj University — Panvel
Master of Computer Applications (MCA) — *2024 – 2026 | CGPA: 8.10*

Mumbai University — Kalyan
Bachelor of Science in Information Technology (B.Sc. IT) — *2020 – 2023 | CGPA: 8.90*

Projects

AI Marketing Agent – Agentic AI & Automation *Node.js, RSS, LLM, REST APIs, JavaScript*

- Built an agentic AI marketing automation tool using Node.js that aggregates real-time industry news and turns it into publish-ready social content
- Implemented industry-based filtering across three sectors – Pharma, NBFC, and Capital Markets – to deliver relevant, targeted news feeds
- Integrated RSS feeds to fetch and display the latest news automatically, eliminating manual news research
- Automated LinkedIn post generation: selecting a news item triggers AI-based content creation tailored to the chosen article
- Added content filtering and customization controls so users can refine generated posts before publishing

Certifications

- Qspiders Certified Full Stack Web Developer
- GCP Gemini Enterprise Agent Certified
